General Comments

Tai-Lin Liu; Diary on 04/14/10, Wednesday – Sunny Day (around 56 – 68 F)

-Arrived Burma Road office at 7:00 am. I was trying to find a defensive driver training class to attend because my certification will be expired on 4-19-10 that just few days away. I asked Grady, Brian and Jason where to find the class. They all said that I could find from CTPASS. I went in CTPASS and found out that CT does not offer this class at D4 area in near future. Finally, Bill forwarded e-mail from HQ to me that ask senior to gather the name who need attending this class then CT can have class for those people.

-Continued to study the RFIs and Submittals. Approved inspectors' diaries. Cleaned Lotus Note space that already exceeded the limited capacity. Talked to Jason for field bolting operation.

-Karen came to talk to me at 4:15pm, she want to know the info for Team China Punch list items status and any info for planer offset on segment joint from China. We also talked about blue tag & weld maps on shop segment joints. Later on, she also asked for horse – shoe drawing to find out the barrier issues. Wrote & approved daily diaries in PMIV system, left office at 5:00am.

* Worked 1.5 hours OT today (04/14/10, Wednesday)
